

SUBSTANCE OF EXAMINER INTERVIEW

Applicant's Attorney Richard Bucher and Examiner Cao conducted a teleconference on June 18, 2007. During the teleconference, Applicant and Examiner Cao discussed the references cited by the Office ("Presenting C#" by Willie and "Teach Yourself Visual Basic 6 in 21 Days" by Perry) and the Office's position with respect to the subject claims (Claims 1, 3-16, 18-42). Specifically, Applicant's Attorney Richard Bucher noted that all of the claimed features are not disclosed in Willie or Perry, either singly or in combination. In addition, Applicant's Attorney Richard Bucher and Examiner Cao discussed the possibility of Applicant making clarifying amendments with respect to the § 103 rejections. However, no agreements were made in this regard. Applicant's Attorney Richard Bucher and Examiner Cao did agree, however, on certain claim amendments that if made, would result in the Office withdrawing the §§ 101 and 112 rejections.
